

Marabu MaraJet DI-SX: cost-effective, eco-solvent ink

Marabu's new MaraJet DI-SX solvent-based inkjet ink is a range of plug-and-print inks developed especially for ECO-SOL MAX2-generation Roland printers. The new offering represents an outstanding, cost-effective alternative to the OEM product.

MaraJet DI-SX is a new line of eco-solvent ink that addresses today's market imperatives. Specially developed for Roland's ECO-SOL MAX2 ink printers, the line can also be used with other devices of the same build. In addition, MaraJet DI-SX's perfectly matched colours, high lightfastness, and ease of use set new standards for inkjet ink – and make it a choice that customers can truly trust.

The advantages are clear

Marabu's MaraJet DI-SX is a plug-and-print range. That means changing to Marabu's ink is simple – colour profiles do not need to be adjusted, as the ink's properties have been specifically tailored to the print head. Moreover, the ultrafine pigment allows users to deploy the ink for a host of applications, and it extends the life of the print heads. As a result, MaraJet DI-SX guarantees first-rate, cost-effective printing, every time.

What's more, the ink can be applied to various substrates, including PVC-coated banners and plastic sheeting, self-adhesive foils, and textiles. It dries very quickly, making it ideal for fast printing and roll-to-roll print jobs. Marabu manufactures the ink using particularly mild and low-odour solvents that have a minimal impact on health and the environment. The pigments are of very high quality – enabling the production of a brilliant, nickel-free yellow, plus metallic colours such as silver, gold, and bronze.

Switching to Marabu is simple

Marabu provides customers with tailored, end-to-end solutions. We offer outstanding products, extensive expertise and knowledgeable advice, and other services. Additionally, Marabu is currently offering customers a unique incentive to try its eco-solvent portfolio. Users who switch to the new line will receive a complimentary set of inks. For more information, please send an email with the subject line "free ink" to disx@marabu.com.

Marabu GmbH & Co. KG
