

Safety and Versatility

Thanks to their properties, most ink series are suitable either for a large number of substrates or for special applications. Tampa[®] Tex TPX is a real all-rounder: it is the first choice for printing all kinds of substrates, but also for sensitive applications such as baby articles.

Wide substrate range

Tampa[®] Tex TPX convinces on a vast number of materials, such as

- Tritan
- PP, PE, TPE
- All kinds of textiles
- PET, PETG/A
- Metals
- Glass
- Wood
- Rubber-like and coated materials
- PA, PC, PVC, PMMA
- PS, ABS, SAN
- and many more

Sensitive applications

A main application is printing onto all types of baby articles made of polypropylene or Tritan. Tampa[®] Tex TPX scores with a mild formulation and fulfills the very stringent manufacturer guidelines.

Simply comfortable textiles

As a cost-effective alternative to heat transfer or annoying sew-in labels, Tampa[®] Tex TPX keeps its promises: Removing these disturbing labels often ends with damaged clothing. Direct printing of size information, washing instructions, or logos eliminates this problem and provides full wearing comfort.

For further information regarding textile, non-textile, and sensitive applications of Tampa[®] Tex TPX please refer to the [Tech Infos](#) and the Technical Data Sheet on www.marabu-inks.com

Your Benefits:

Exceptionally large variety of substrates

→ Very good adhesion / universal application possibilities

High opacity

→ Applicable on coloured materials

Easy processing

→ For process safety and efficiency

Highest consumer safety

→ Certified according to ECO-PASSPORT by OEKO-TEX[®]

→ Contains no CP 65 substances according to its chemical constitution*

→ Regularly tested according to AFIRM specifications

For baby articles such as drinking bottles, soothers, teething rings

→ Compliance with standard EN 71/3 ("Toys Directive") and other manufacturers' specifications

Less expensive than heat transfer labels

→ Significant savings potential

Flexible and resistant against washing and ironing

→ Keeps up the comfort and meets the highest quality standards
